PROFESSIONAL PROFILE

My background spans frontend, backend, UX and generative AI — because I want to understand the product as a whole. Before development, I led teams, worked in sales, and built a career in design and illustration. Today I apply that same logic to code: understand the problem, think through the solution, execute it well — with technical judgment, visual sensibility, and the ability to communicate across teams.

I built Trece Art Studio — my design and illustration brand with over 3 years of independent work for real clients, including Cementerio de Libros (1.6M Instagram followers). Trece Art Studio is my entrepreneurship: a studio I created, grew and run — and the foundation I'm now building on to make the leap into professional software development. Currently expanding into Node.js and React, exploring the AI Engineer path — where programming, product thinking and language models converge. That experience gave me visual judgment, clear communication, and the ability to understand what a client actually needs — skills I now bring directly into my development work. I left my sales job to focus fully on development. I'm actively looking for my first IT role and ready to contribute from day one.

SKILLS

Tech: JavaScript · HTML5 · CSS · Node.js (in progress) · React (upcoming) · Git · GitHub · Responsive Design

AI: Generative AI · Prompt Engineering · Chain of Thought · RISE · TAG · LLMs · OpenAI API

Design: UX Design · Illustration · Adobe Illustrator · Photoshop · Canva · Figma

Soft skills: Team Leadership · Client Management · Visual Communication · Agile / Scrum basics · Problem Solving

PROJECTS

01 Personal Portfolio · Live

HTML · CSS · JavaScript | [camilachirinocastell-portfolio.netlify.app](#) | [github.com/camilachirinocastell/camilachirinocastell-portfolio](#)

- Fullpage scrolling, dark/light mode, Google Analytics integration
- Presented technically to instructor Carlos R. Decurgez at ADA ITW (April 2026), justifying every design and development decision

02 Library Management System · In development

JavaScript · Node.js | [github.com/camilachirinocastell/library-management-system](#)

- Data structures, search and sorting algorithms, loan management system
- Built in vanilla JavaScript; expanding with Node.js backend — deploy in progress

03 AI Contact Assistant — Trece Art Studio · Coming soon

React · OpenAI API · CSS · Netlify | [Esencia ADA ITW 2026 final project](#)

- Web app automating client contact responses using 5 chained prompts (Chain of Thought)
- User selects query type → app generates a professional reply via OpenAI API
- Demonstrates AI Engineer skills: prompt design, API integration, real use case, human-in-the-loop decision making

EXPERIENCE

Web Developer & Generative AI · Trece Art Studio · Self-employed

2023 – Present | Córdoba, Argentina · Remote

- Frontend projects and AI integrations under my independent studio
- Applied Prompt Engineering (RISE, TAG, Chain of Thought) to real business use cases
- Designed a 5-prompt Chain of Thought system to automate client contact for Trece Art Studio

Content Manager & Illustrator · Cementerio de Libros · Freelance

Dec 2023 – Present | Colombia · Remote

- Illustration and content for a reading community with over 1.6 million Instagram followers
- Hand-drawn illustrations and digital design for the Book Cemetery Reading Club launch (2024)

Tools: Adobe Illustrator · Photoshop · Figma · Canva

Sales Supervisor · Berlin Automotores · Full-time

Aug 2024 – Apr 2025 | Córdoba, Argentina

- Led and coordinated sales team to meet commercial targets in the automotive sector

- Trained team in digital sales techniques and CRM tools
- Analyzed performance metrics and prepared strategic management reports

EDUCATION & CERTIFICATIONS

Esencia — Generative AI & Product Development	ADA ITW · Eidos Global · Google.org · 2026
Web Layout Mastery (HTML + CSS)	ADA ITW · 2026
Node.js Fundamentals	ADA ITW · 2026
Introduction to Frontend (JavaScript)	ADA ITW · 2025
Applied Generative AI	ADA ITW · 2025
UX Design	Google / Santander Academy · 2024
Frontend Development (HTML, CSS, JavaScript)	ADA ITW · 2023 · Project highlighted for Municipal scholarship
English Certificate B1	British Council / Santander Academy
Public Speaking & Communication	UNC · 2012
Bachelor's Degree in History — Research track (incomplete)	Universidad Nacional de Córdoba (UNC) · 2019– present
English for IT — private weekly classes (ongoing)	Current

TESTIMONIALS

“Llevamos casi tres años trabajando juntos y Camila siempre entregó con autonomía y criterio. Su trabajo contribuyó directamente al crecimiento de la cuenta a más de 1.3 millones de seguidores.”

— **Felipe Puerta** · CEO · Cementerio de Libros

“Muy buen trabajo y principalmente se nota que le pusiste mucha onda y terminó resaltando muchísimo. También dejé un comentario para el tema de la beca, porque me gustó mucho tu proyecto.”

— **Ian Javier Rivas** · Instructor Frontend · Mujeres Programando 2023

LANGUAGES

Spanish Native **English** B2–C1 (in progress, IT-focused · private weekly classes)
